OPERATION ORDER - EXERCISE GLASSWING

Document: DOC-0017 Version: 1.0 Status: approved TLP: AMBER+STRICT
Owner: Tim Respons Insiden Simulasi Approver: Dewan Pengarah Simulasi Next review: 2027-04-28

1 Situation

Fictional tabletop scenario only. A simulated telemetry fault is reported at the fictional relay site "Marlow Supply Depot Relay Site". Generic conditions only; no real system, vendor, or network is described.

2 Mission

Validate notification and recovery procedures for fictional OT sites in a training exercise.

3 Execution

Phase	Window	Activity	Lead
P0 Notify	T+00:00	Issue exercise start notice	Exercise Control
P1 Assess	T+00:30	Simulated triage of fictional asset list	Control Cell Lead
P2 Contain	T+01:30	Tabletop containment decision	Incident Team
P3 Recover	T+03:00	Simulated restore walk-through	Recovery Team
P4 Debrief	T+04:30	Lessons recorded	Recorder

4 Sustainment / Logistics

- Printed checklists (simulated, fictional)
- Simulated tickets for the exercise board
- Exercise binders for each control cell
- Room booking for the tabletop session

5 Command & Signal

Exercise Control is led by Dewan Pengarah Simulasi (Exercise Director role).
Simulated message channel: EX-GLASS only. No other channel is used in this exercise.
